

Handling Objects

Questions to think about when handling objects:

- What is it made of?
- Is it old or new?
- Is it complete?
- What was it used for? When was it used? How was it used?
- Who used it?
- What difference did it make to the lives of the users?
- What shape or colour is it?
- Is it rough or smooth, decorated or plain?
- How was it made? Do you think it would be expensive to make?
- What can it tell us about the lives of the people who used/made it?
- Do you think it should be kept in a museum?
- Is it like anything you have at home?
- Has its use changed?
